

BOULT WADE TENNANT

Trainee scheme

Do amazing things with your working life. Join Boult Wade Tennant

Our trainee programme offers opportunities to launch your IP career with an award winning firm. You'll need drive, talent and ambition and, of course, a cracking CV.

Who can apply

We recruit graduates and postgraduates from a wide range of academic backgrounds. We also recruit from those who are at different stages in their career - from just starting out to those already working and who are looking for a change in career direction.

The common factor is that all our trainees are excellent communicators and all have a relevant undergraduate/postgraduate degree and/or industry experience.

Academic entry requirements

You will need:

- To have obtained, or to have predicted, at least a 2:1 in a relevant academic subject at undergraduate level. Those with a patent interest must be studying for, or already have, an undergraduate degree in a relevant technical field (science and/or engineering). Postgraduates and/or those with relevant industry experience will be viewed favourably.
- 340 UCAS points (AAB) at A Level.

How do I apply?

It is a quick and easy process. Simply send a covering letter and CV to recruitment@boulton.com. We understand that writing a covering letter to accompany your CV is always difficult but it is a crucial part of the application process. It is your opportunity to demonstrate your capabilities and suitability to join our trainee scheme. It is also a great vehicle to show a little of your personality and enables you to stand out from other well qualified applicants.

When will I hear if I have been successful?

At each stage of the application process we will let you know if you have been successful as soon as we can – usually within three weeks.

Good luck!

Making life simple. A three stage application process*

- ✓ Send your CV and a covering letter to recruitment@boulton.com
- ✓ First round interview with partners from the practice group of your technical field.
- ✓ Second round interview with a panel of partners from across the firm.

*You'll need to be successful at each stage to move on to the next.
